

DMB Consultancy is a privately owned, independent consultancy with over 22 years experience in the pharmaceutical industry and is involved in all aspects of support to the pharmaceutical industry

We are a trusted, responsive and reliable organisation with an excellent track record in providing comprehensive support services to all areas of the Pharmaceutical, Biotech and Healthcare industries which need to meet the exacting standards and expectations of the global pharmaceutical industry.

The organisations we work with benefit from the additional resources and advice we provide to ensure their key objectives are met in a timely, efficient and cost effective way.

With offices close to London **DMB Consultancy** offer services throughout the UK, Europe and the USA.

Projects can be carried out at your facilities or ours, depending on the type of project and the overall project requirements.

We also specialise in helping companies worldwide to identify, approve and manage sub-contractors in all areas of the pharmaceutical development cycle.

We can also co-ordinate and assemble specialists teams to support virtually any client defined project.

Whether the project is large or small, we offer a personal and completely flexible service which can help you achieve your objectives.
